The Piedmont correspondent of the *Greenville Times* says: "The new bridge at Brushy Creek is nearing completion and is a fine piece of work, in which our new Supervisor, J. N. Vandiver, has demonstrated that he is the right man for the place. The new bridge crosses the creek nearly a third of a mile above the old location, and has a much easier approach and does away with the long hill at the old bridge. Ex-Supervisor Snodgrass has been over to give advice at times. He will be missed in Anderson County road matters, in which he has been so prominent, but leaves road matters in good hands."

The Piedmont correspondent of the *News and Courier*, under date of the 8th inst., says: "Mr. F. J. Pelzer had the misfortune to lose his magnificent barn at his summer home, about three miles from here, last night by fire. Col. Thos. W. Holloway, the genial and energetic Secretary of the State Fair, in a private letter to us, says: "The outlook for a successful Fair is promising and while such is the case I beg you to impress upon your readers that Anderson County is for several years the banner County in exhibits and the attendance of visitors. For the past several years such has not been the case. Your County is regarded as one of the most progressive Counties in the State, but her interest in the State Fair seems to have waned, and why? I hope your farmers will wake up, write to me for a premium list and entry blanks and again enter into competition with other Counties in the State." The State Fair will be held this year from November 6th to 10th, and we would be more than pleased to see Anderson County well represented at it by both exhibits and visitors. As Col. Holloway says, Anderson is the most progressive County in the State, and we should take advantage of the opportunity offered to display our fine stock, products, etc., at the State Fair. Such exhibits were beneficial to our County in years past and will be so again. Write to the Secretary at Pomaria, S. C., at once and secure a premium list.

Last Wednesday afternoon a most fiendish outrage was attempted by Tom Jenkins, a negro brute, on a most excellent young lady near the northeastern suburbs of the city. The young lady lives about a mile from the city limits. She was on her way from the Central Graded School, and passed a field in which Jenkins was ploughing. The scoundrel came towards her, making an indecent proposal to her and an indecent exposure of his person. The lady screamed, ran from the brute and soon reached home, frightened almost to death and completely prostrated. Her father, who was in the city, was notified, and the matter was reported to the proper officers. In the meantime a number of the friends of the young lady heard of the attempted outrage and began searching for the negro. On Thursday he was found at his home, was identified, and was given the choice of swinging at the end of a rope or submitting to a certain surgical operation. He chose the latter, and it was scientifically performed by an expert. The brute was then warned to leave this section as soon as he was able to walk. About a year ago the negro attempted a similar outrage in this County and was given a severe whipping, which was intended to have done no good. He was given what he deserved last Thursday, and no doubt will be a lesson that he will not soon forget.
